

## INSPECTION

The Aux Gym will host only Inspection in the morning. ONLY the team being inspected and their spectators will be allowed in this Gym during their inspection. The gym is 63' wide by 97' long as shown. The doorway has double doors that are 10 feet in total width. The doorway is EXACTLY 27' from the back wall of the room (and therefore, 60' from the "front" wall where the Head Judge will be located) It will be the only door in use (both in & out) for the inspection event.

ALL HJ POSITIONS ARE AT THE MIDWAY POINT OF THE TAPE. THE JUDGE IS AGAINST THE TAPE:

REGU & EX - HJ @ 45'  
CG - HJ @ 27-1/2'  
INS - HJ @ 31-1/2'

Regulation & Exhibition will maintain 25' entry / exit points.  
Color Guard will utilize 15' entry / exit points.  
Inspection will use a 36" doorway. All teams will be in the ready area on-time and wait to be approached by the Head Judge (HJ) who will brief, then call for their entry.

NOTE:  
Head Judge may be placed anywhere within the Exhibition event

IN THE MORNING, teams will compete in the Inspection Area then the Color Guard Drill Deck. After these two events complete around lunch, the Color Guard area will be taken down and the Exhibition Drill Deck (shown at left) will be created mirroring the Regulation Drill Deck in the Main Gym.

These two areas will continue through the afternoon

This EXHIBITION deck will be laid out exactly where the morning Color Guard area is located.
